	Examiner Kieu D. Vu	Art Unit 2173	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office Action is responsive to the Preliminary Amendment filed on 09/17/03.
2. Claims 6-9 and 15-18 are pending.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 8 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8 and 17 contain the trademark/trade name HWND ClassName, HWND Style and ExStyle. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe class and style and, accordingly, the identification/description is indefinite.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 6, 8-9, 15, and 17-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Malamud et al ("Malamud", USP 5694561).

Regarding claims 6 and 15, Malamud teaches a system comprising the steps of storing information relating to each user interface window existing within a computer operating system in a working database (col 2, lines 45-48), determining a top window and receiving user input directed to the window (col 13, lines 1-2). Malamud also teaches the recognizing the input and determining information context for the top window based on information stored in the working database (col 13, lines 1-8).

Regarding claims 8 and 17, Malamud teaches the information includes class name (col 6, line 53) and style (col 14, lines 60-61).

Regarding claims 9 and 18, Malamud teaches the information includes that the window is a text input field (col 13, lines 4-5).

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to

Art Unit: 2173

be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 7 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Malamud and Thielens et al ("Thielens", USP 5666139).

Regarding claims 7 and 16, Malamud does not teach the use of a digitizing pen as an input method. However, such feature is known in the art as taught by Thielens. Thielens teaches a pen-based computer copy editing apparatus which comprises the use of a pen to enter input (block 19 in Fig. 1). It would have been obvious to one of ordinary skill in the art, having the teaching of Malamud and Thielens before him at the time the invention was made, to modify the window system taught by Malamud to include input pen taught by Thielens with the motivation being to enable the system to use different types of input devices.
